3. COMPETITION OBJECTIVE

The main objective of the Competition shall be selecting the best conceptual urban-architectural design of the area encompassing the plots predominantly owned by EPCG, which shall, following selection of the first-ranked competition entry, be subject to further elaboration through a Detailed Urban Plan and/or Detailed Designs.

The general and final objective is a radical remodelling and reaffirming the area in terms of contents and amenities thereby contributing the development of Nikšić Municipality, changing the appearance and use of the zone and creating a new identity, residential settlements with social and central activities' facilities and landscaped public areas along with establishing connections with the town structures at contact zones.

4. COMPETITION FORM

The Competition for conceptual urban-architectural design is international, single-stage and anonymous. Competition entries must be prepared in line with the Competition Invitation, based on the Competition Brief as well as legislation governing the subject area.

5. COMPETITION BRIEF

The Competition Brief encompasses a part of Nikšić town that belongs to Željezara's service area and encompasses settlements, social facilities and urban green space developed in line with at that time existing standards.

The Competition encompasses six spatial units – zones, in accordance with the heritage and planned infrastructure and contacts with neighbouring zone:

INVITATION TO COMPETITION

1. Zone A – the first spatial unit is an entry plot to a new residential-business zone and stretches from the junction of Ul. Vuka Karadžića street and the road towards Ostrovac (A1 and A2);
2. Zone B – the second spatial unit of cca. 100 m wide stretch on the south of Ul Vuka Karadžića street, i.e. from the industrial track up to the parking of Željezara,;
3. Zone C – the third spatial unit, between Ul. Vuka Karadzica street and the industrial track, has been envisaged for a shopping mall;
4. Zone D – the fourth spatial unit, between the road Niksic-Ostrovac and the industrial track, has been envisaged as a point where the existing and future structures meet, with significant presence of public content;
5. Zone E – the fifth spatial unit, located in-between the industrial track and access roads, where it is necessary to resolve the existing sub-standard residency.
6. F1 and F2 zones – the sixth spatial unit made of two sub-units as the transient – buffer zone towards the industrial zone.

Location of the competition Site encompasses rail and road traffic corridors among which Ul Vuka Karadžića stands out as a significant arterial street and an industrial intersection gauge representing thereby a significant resource for the industrial zone reaffirming. Routes of the existing traffic corridors will be retained, but a competition entry needs to contemplate their reconstruction and construction of new streets reaching thereby functionality of connection between the location subject to the competition and the neighbouring area.

Creating conditions precedent for development of a new identity of this part of the town, which together with Željezara, as an industrial giant, stood for a backbone of the municipal development, is the objective of the Competition. After a multi-annual degradation, to which this area has been exposed to, it is necessary for the area users to obtain a basis for changing the prospect and function of this part of town.

Planning of the location contents must be done with due attention in order to create a new image of the area, with state-of-the-art residential buildings, business centres, social standard buildings (kindergartens, sports yards, swimming pools, landscaping), and offer solutions for overcoming spatial barriers and creating functional connections with the surrounding area.

The main objective of the Competition is selection of the winning conceptual urban & architectural design of the new residential-business centre in Nikšić, based on parameters and recommendations stipulated in this Invitation to Competition and the Competition Brief.

Location of the project site is marked in the graphic enclosure that makes a composite part to this competition material and encompasses cadastral parcels no.: a part of 3045/1, 3078/1, 3078/2,

3078/3, 3079, 3080, 3081, 3082, 3083/1, 3083/2, 3083/3, 3084/1, 3084/2, 3084/3, 3084/4, 3084/5, 3084/6, 3084/7, 3084/8, 3085, 3086/1, 3086/2, 3086/3, 3086/4, 3087, 3089, 3090/1, 3090/2, 3090/3, 3091, 3092, 3093, 3094, 3146, 3147, 3148, 3149, 3150, 3151, 3152, 3153, 3154, 3155, 3156, 3157, 3158, 3159, 3160, 3161, 3162, 3163, 3164, 3165, 3166, 3167, 3168, 3169, 3170, 3171, 3172, 3173, 3174, 3175, 3176, 3177, 3178, 3179, 3180/1, 3182, 3183, 3190, 3193, 3194, a part of cadastral parcel 3192, 3195, 3196, parts 3505/1, 3507, 3508, 3509, 3510, 3511, 3512, 3513, 3514/1, 3514/2, 3514/3, 3514/4, 3517, 3520, 3521, 3522, 3523, 3524, 3525, 3526, 3527, 3528, 3529, 3530, 3531, 3532, 3533, 3534, 3535, 3571, 3572, 3573, 3574, 3575, parts 3604, 3605, 3606, a part of 3816, a part of 4539, 4568, a part of 4569, a part of 4567, a part of 4580, 4968, CM Nikšić.

12. COMPETITION MATERIAL:

Documents, in textual and graphic form, encompassed by the competition material shall be made available to all participants in e-form and shall encompass the following documents:

- Invitation to the competition;
- Competition brief;
- Excerpt from the Plan on intended use of surfaces of the Spatial-urban Plan of the Municipality of Nikšić;
- Urban-technical requirements for surfaces intended for central activities;
- Cadastral – geodetic survey map
- Photo and video logs.

12.1. CONTENTS OF THE COMPETITION ENTRY

Pursuant to the Rulebook on the method and procedure for the announcement and implementation of public competition, a competition entry must contain graphic, textual, numeric and other enclosures the author finds adequate for the competition entry presentation.

The Competition entry needs to contain conceptual urban and architectural design of the entire surface and zones thereof.

Conceptual Urban-architectural design of the area

12.1.1. Textual and numerical part:

Each competition entry contains textual part presented in A3 sized volumes containing the following:

- Rationale of the Conceptual design;
- Distribution of contents;
- Numeric documents (easily legible tables) with urban parameters referring to the overall competition footprint and separate parts thereof, according to the program contents of the space;
- Described application of energy efficiency and eco-friendly principles (use of renewable energy sources, materialisation);
- Indicative estimate of the investment;
- Graphic part- thumbnail graphic enclosures / panels.

12.1.2 Graphic part:

Each competition entry contains graphic part presented on A0 sheets, with the following contents:

1. Urban design of the entire footprint:

- Competition entry layout in the context of the wider urban environment. R 1/1000
- R 1/1000 Conceptual layout of spatial elements and disposition thereof inside the footprint as well as a relationship with the immediate and wider environment; a layout of general purposes of the space, main traffic infrastructure and similar. R 1/1000

Appearance of both the entire settlement and its individual structures

- Detailed perspective of the competition entry – purpose of surface areas and structures in details, conceptual layout plan
- R 1/1000 The plan of physical structures and spatial relationships (with drop-shadow), space regulation and elevation, number of floors, traffic network, brief data on planned capacities and other data that need to be presented in graphic enclosures for better scrutiny of the competition entry. R 1/1000.

Spatial units

- Depiction of specific spatial segments – the selected spatial parts, making separate shape and functional units, presented in the location plan view, cross-sections and appearance (through the unit and its structures).
- Viewpoint of a spatial unit with contact zones (foundation, perspectives, 2 specific cross sections) R 1/500

Specific architectural solutions of individual structures:

- Animations - 3D view: Mandatory 3D views from the upper and lower angle of view from positions selected by the author:
- 1-minute long 3D animation (in suitable format).

All mentioned textual and graphic enclosures are a mandatory part of the competition entry. Entries in which the mentioned mandatory enclosure are left out shall not be taken into account.

13. FORMS OF COMPETITION ENTRIES

Competition entries are submitted only electronically.

13.1. Text enclosures

Text enclosures are submitted in a single PDF form, A3 size (horizontal orientation), including the content from chapter no. 12 and graphic enclosures reduced to A3 size.

Full name of the Competition to be written in the upper right corner of each page.

Entry code to be written in the upper left corner of each page.

Use Arial font, size 11.

13.2. Graphic enclosures

Graphic enclosures of the competition entry are submitted in a single PDF form, A0 size (horizontal orientation). Graphic enclosures are submitted in compliance with the content referred to in chapter no. 12. The number of pages is not limited.

Maximum two posters, A0 size, are to be submitted in order to organize the exhibition, which posters can be used by the author to present the content they have chosen from the competition entry.

Full name of the Competition to be written in the upper right corner of each page.

Entry code to be written in the upper left corner of each page.

Use Arial font, size 16.

Graphic enclosures of the competition entry are also submitted in a form reduced to A3 size, being an integral part of the file referred to in item 13.1.

Important note: *While creating the documents, one should pay attention that the documents do not contain data which could threaten anonymity of competition entries.*

14. SUBMISSION OF ENTRIES

Competition entry is submitted via e-mail to the address: konkurs.suncanigrad@epcg.com not later than **March 20, 2024**.

Regarding sending of entries, it is mandatory to use e-mail addresses created exclusively for this purpose, which contains the following elements:

1. sunčani_grad
2. dot (.)
3. selected code of the author, and
4. widely used domain (gmail, yahoo, hotmail, etc.)

Example: sunčani_grad.xxxxx@gmail.com

While sending the documents, use WeTransfer or the equivalent thereof.

INVITATION TO COMPETITION

Participants will receive e-mail confirmation of the receipt of a competition entry. Participants shall be fully responsible for safe and timely submission of the documents and EPCG cannot be held liable for unsuccessful applications.

The application shall be considered a valid application if it contains four folders with PDF files (and 3D animation in an adequate format), as follows:

Folder 01 (contains text enclosures and reduced graphic enclosures in a single PDF file – A3);

Folder 02 (contains graphic enclosures in a single PDF file -A0);

Folder 03 (contains 3D animation in an adequate format);

Folder 04 (contains data about the author/the team)

Upon receipt of the competition entries, rapporteurs shall verify submitted documents and take the folder with data about the author/the team to be kept until the Jury's final decision.

Folder 04 "DATA ABOUT THE AUTHOR" contains the following:

a/If payment of the reward is made to physical entities:

Entry code - five-digit number;

1. Name(s) of the author, i.e. representative(s) of the author's team;
2. Address, e-mail address and cell phone number of the author's team representative;
3. Statement of acceptance of the terms and conditions;
4. Statement on allocation of the reward including numbers of bank accounts of the author's team, to which
5. the reward amount will be paid, which must be signed by all members of the author's team
6. including payment instructions

b/ If payment of the reward is made to the company:

- Entry code - five-digit number;
- Name(s) of the author with the address and phone number;
- Company name, TIN and VAT;
- Address, e-mail address and cell phone number of the author's team representative;
